

# DENER ARAUJO PERES

[Portfolio](#) | [LinkedIn](#) | [deneruaraujo@gmail.com](mailto:deneruaraujo@gmail.com) | [GitHub](#)

## Skills \_\_\_\_\_

- HTML5 | CSS3 | JavaScript | TypeScript | React | Next.js | Redux | TailwindCSS | Node.js | NestJS | Vitest | Jest | PostgreSQL | Docker | Prisma | Git | AWS S3 | R2
- SEO | Accessibility | Responsiveness | TDD | DDD | Clean Architecture | SOLID | Clean Code | Business Rules | Functional Requirements | Non-Functional Requirements
- English: Fluent, Portuguese: Native, Spanish: Intermediate

## One of my Front-end projects \_\_\_\_\_

### Exclusive Store [LIVE](#) | [GITHUB](#)

**HTML5 | CSS3 | TypeScript | React | NextJS | TailwindCSS | Stripe API | React-Slick | Material UI | Radix-UI | Figma**

- An e-commerce platform built with React and NextJS, incorporating libraries such as React-Slick, Material UI and Radix-UI.
- Uses the Context API for state management and consumes the Stripe API for products and checkout.

## One of my Back-end projects \_\_\_\_\_

### Find a Friend API [GITHUB](#)

**TypeScript | Node.js | NestJS | Vitest | PostgreSQL | Docker | Prisma | Cloudflare R2**

- The API follows Test-Driven Development (TDD), Domain-Driven Design (DDD), Clean Architecture and SOLID.
- To ensure reliability and accuracy, it is equipped with a comprehensive set of end-to-end and unit tests.
- It connects individuals in search of pets with pet adoption organizations. It provides a platform for organizations to register and validate their identity using JWT. Uses Cloudflare R2 for storage.
