

DENER ARAUJO PERES

[Portfolio](#) | [LinkedIn](#) | deneruaraujo@gmail.com | [GitHub](#)

Skills _____

▪ HTML5 | CSS3 | JavaScript | TypeScript | React | Next.js | TailwindCSS |
Node.js | NestJS | Vitest | Jest | PostgreSQL | Docker | Prisma | Git

One of my Front-end projects _____

Exclusive Store [LIVE](#) | [GITHUB](#)

**React | NextJS | TypeScript | TailwindCSS | Stripe API | React-Slick | Material UI |
Radix-UI | Figma**

▪ An e-commerce that uses React & NextJS, a couple of libraries like React-Slick and Material UI.

▪ Consumes the Stripe API for products and checkout.

▪ Uses a free design from Figma, made by: [@mdrimel15](#).

One of my Back-end projects _____

Find a Friend API [GITHUB](#)

Node.js | TypeScript | NestJS | Vitest | PostgreSQL | Docker | Prisma | Cloudflare R2

▪ The API follows a Test-Driven Development (TDD), Domain-Driven Design (DDD) approach, Clean Architecture and SOLID.

▪ To ensure reliability and accuracy, it is equipped with a comprehensive set of end-to-end and unit tests.

▪ Uses Cloudflare R2 for storage.

▪ It connect individuals in search of pets with pet adoption organizations. It provides a platform for organizations to register and validate their identity using JWT.
